

TFF - Membership Report 2023 – 24

I took over the role of membership director in September 2022 and continued my role in September 2023. I updated the membership list with current addresses, contact numbers and e-mail addresses, then following a previously approved proposal, the membership list was e-mailed to all existing members.

From last season's thirty-three (33) active members, sixteen (16) have attended live meetings so far this season, while others decided to choose separate Zoom meetings and four (4) decided not to return.

In keeping with the By-laws regarding attending eight (8) in-person meetings per season and bringing a minimum of four (4) prints for evaluation and discussion per season (suspended temporarily because of Covid), we have eight (8) out of our nineteen (19) currently active members this season who have already met this quota. The remaining members include people who are dealing with health, logistical or other issues.

During the 2023-2024 season, one new member, David Kempton, was admitted to the forum on March 20 after a stellar portfolio review.

Attendance Summary: over our thirteen (13) in-person meetings as of March 20, we have averaged approximately nine (9) members attending. There have been three (3) lows at seven (7) members and September 6 was our high at eleven (11) attendees.

Allan Fligel
Membership Director
